

Yamen Ajjour

Birth 28.08.1989 in Krakow
Mail yaajjour@hotmail.com
Languages English, German, Arabic
Nationality German, Syrian
Address Hannover, 30173
Web [Linkedin](#) [Blog](#) [Github](#)

EDUCATION

PhD in Computer Science 2017 - 2023

Bauhaus University Weimar

Grade: Magna cum Laude

Thesis: Addressing Controversial Topics in Search Engines

Master of Science in Computer Science and Media 2014 - 2016

Bauhaus University Weimar

Grade: 1.44

Thesis: Mining Relevant Arguments at Web Scale

Bachelor of Science in Informatics Engineering 2006 - 2012

Aleppo University

Grade: 79.45 from 100

Final Project: Developing Web-based Business Process Management System

AWARDS AND SCHOLARSHIPS

Outstanding Reviewer Award at EACL 2023 2023

Best Paper Award at the 42nd German Conference on Artificial Intelligence 2019

DAAD Scholarship for Master Study 2014 - 2016

Türkiye Scholarship for Master Study 2013 - 2014

WORK EXPERIENCE

Postdoctoral Researcher 1.2023 - now

Leibniz University Hannover

- Exploring examples sampling strategies for few-shot stance classification. Fine-tuning Alpaca using LoRa on seven stance classification datasets.
- Building an instruction fine-tuning dataset to analyze the generalizability of instructions fine-tuned model over tasks.
- Using causal knowledge graphs to generate factual text and comparing it to RAG.
- Teaching NLP programming labs and tutorials. Example algorithms: Byte-pair encoding, SVM, RNNs.
- Co-organizing the ArgMining 2024 workshop and an internal research symposium.

Research Assistant 11.2021 - 12.2022

Leipzig University

- Developing recall-oriented machine learning models to extract arguments from a large web crawl

Research Assistant 10.2019 - 11.2021

Martin Luther Universität Halle-Wittenberg

- Developing question classifiers using transformers and using them to analyze Yandex! logs.

- Organization of shared tasks: touché, same side stance classification, frame identification
- Developing a stance classifier using BERT and Keras and integrating it in an argument search engine.
- Managing and analyzing high scale textual datasets.
- Supervision of internship projects with industry (e.g., Relaxdays).

Research Assistant

01.2017 - 10.2019

Bauhaus University Weimar

- Developing and maintaining an argument search engine (www.args.me), including developing neural networks and CRF models to mine arguments in natural language.
- Crowd sourcing question datasets on Amazon Mechanical Turk and Toloka.
- Supervision of labs, projects, seminars, and theses.

Student Assistant

04.2015 - 12.2016

Bauhaus University Weimar

- Developing a search engine for Wikipedia.
- Developing a crowd sourcing interface for offensive language detection.

C++ Developer

11.2012 - 09.2013

IDscan Limited LTD

- Developing algorithms in OpenCV to detect blurry images.
- Developing computer vision algorithms to recognize personal documents in photos using OpenCV.
- Creating wrappers for C++ libraries in C#, Java, and Python.

Odoo ERP Developer

08.2011 - 08.2012

Taiba Soft

- Customizing and maintaining an ERP System for a hospital based on OpenERP.
- Customizing a PyQt-based client for the ERP System.

SKILLS

Programming Languages	Python, C++, Java, Bash, SQL, L ^A T _E X
Libraries	PyTorch, Pandas, sickit-learn, NumPy, vLLM, Hugging Face, SciPy, Matplotlib, Spacy, Lucene, Outlines, Optuna, Accelerate, LangChain
Software	Github, Gitlab, Docker, PySpark, Hadoop, Amazon Mechanical Turk, AWS, SLURM

TALKS

Argumentation Technology

2022

SCADS AI Summer School

Instructions Fine-tuning with Alpaca

2024

PyData Meetup

SUPERVISION AND TEACHING

Projects

Adressvalidierung und Korrektur	2020
The Argument Search Engine	SS2018
Interactive Argument Search	WS2018
Argument Search Engine - Voice-based Argument Search	WS2019
Mining Arguments in Parliamentary Debates	SS2019

Bachelor Theses

Integrating Counterarguments into args.me	2019
Conversational Information Retrieval for Instructional Content	2018
Measuring and Modeling Bias in Search Engines	2020
Generating Factual Arguments by Fine-Tuning LLMs on Causal Knowledge Graphs	2024

Master Theses

Mining Arguments from Experts	2020
Analyzing the Impact of Context on Downstream Argument Assessment Tasks	2023
Personalized Label Explanation Generation	2024

Labs

Computational Reasoning	WS2017, SS2020, SS2023, SS2024
Web Technologien	SS2017, SS2018
Introduction to Machine Learning	WS2019
Web Suche und Information Retrieval	WS2020, WS2021
Natural Language Processing	SS2020, SS2021, WS2024
Language Technologies	WS2023

REVIEWING

AAAI, ACL, EMNLP, COLING, EACL, NAACL, CIKIM, ArgMining, COMMA

CHAIR

ArgMining 2024, ARR 2025, EMNLP Demo Track 2025
